HOSTAS & FERNS

This is NOT a complete list of trees, shrubs, daylilies, hostas, iris and other plants. We have more than 3,000 plants in our holding area . Most plants will be labeled noting if they are native, drought-resistant or pollinator friendly.

PERENNIALS 2018—Perennial plants are located streamside across the lane from the greenhouse. This is a sampling of the many plants available for sale. These plants are all locally grown and have overwintered in Franklin County. Master Gardeners are available to help customers choose the right plant for their landscape. Availability of plants is dependent on condition of the plants after overwintering and greenhouse germination.....

HERBS (Common names)☐	Daylilies, large variety (<u>Hemerocallis</u>)☐	Oak, Chestnut tree (<u>Quercus</u>)☐
Comfrey (<u>Symphytum</u>)☐	Daylily 'Highland Lord' (<u>Hemerocallis</u>)☐	Oak Tree (<u>Quercus</u>)☐
